Forecast for Wednesday 16 Dec 2020

Weather: Overcast through the bulk of the day with periods of rain which turns heavy at times, particularly across southern facing routes. Rain clearing erratically eastwards early afternoon but followed by occasional showers, these heaviest and most frequent across western ranges with a small chance of hail and thunder.

Chance of cloud free mountain/hill tops above 600m: Through the bulk of the day 25% with bases quite extensive from 500-650m, becoming during the afternoon 35% in west and 60% in east as the showery flow spreads in.

Visibility: Poor in the morning, with neighbouring hills barely visible. Becoming generally good during the afternoon, but lowering quickly in and around any showers.
